No. 49.

## TELEGRAPHIC.

WINNIPEG, September 27.

Serious disturbances are reported from Morocco.

Winnipeg defeated Grand Forks and New Westminster defeated Vancouver at lacrosse on Thursday.

Slavin the Australian knocked out McAuliffe the American in two rounds this morning in London.

Reports from Calcutta state that three hundred people have been killed in a fight between Portuguese and natives at Goa.

One hundred thousand acres has been claimed from the Quebec government by parents of families of twelve or more children.

During a recent festival in Mexico an attempt was made to assassinate President Diaz. Forty men were concerned in the plot and 15 have been jailed.

A mortgage of the Calgary & Edmonton railway in favor of Chaplin & Grenfell, trustees, to secure the bonds of the company, has been deposited with the secretary of state at Ottawa.

The United States Indian department has given notice that two Roman Catholic schools on the Turtle Mountain Indian reserve, North Dakota, will be closed. Bishop Sharkey is at Washington protesting.

WINNIPEG, October 3.

D. A. Ross has re-entered the Quebec cabinet.

Earl Aberdeen arrived in Winnipeg on Friday.

Cornwall defeated Ottawa at lacrosse on Saturday.

Sir John says there will be no general before 1892.

Joseph Savery has been elected Lord Mayor of London.

Langevin says parliament will meet in the first week of February.

Harcourt the new treasurer of Ontario has been elected by acclamation.

The remains of Bishop Faraud were interred at St. Boniface on Thursday.

The Methodist conference at Montreal closed on Wednesday. The session began on September 10th.

Burchell has been found guilty of the murder of Benwell and is sentenced to hang on November 14th.

The stock yards, plant and property of the Anglo-American provision company, Chicago, were burned on Sunday. Loss one million.

The Canadian Pacific engineers following the original route of the C. P. R. are now working west of the Narrows of Lake Manitoba.

Joseph Chamberlain the British statesman is now on his way to British Columbia to gather information on the Behring's sea question.

The McKinlay tariff bill has been signed by the president of the United States and becomes law on Monday. Congress adjourned on Tuesday.

Many farmers in the vicinity of Dickenson, Dakota, have been rendered destitute by prairie fires which have been the most disastrous for many years.

The railway from Lethbridge to Great Falls is completed and the first train of coal was shipped to Great Falls on Wednesday. Celebration banquet on the 15th instant.

The maritime province prohibition convention has received a communication stating that all kinds of liquor are flooding the Northwest under the name of four per cent beer.

Regina mounted police, fifty strong, have been in Winnipeg all week on a holiday playing cricket and football and giving dramatic entertainments. They defeated the mounted infantry at cricket, but lost to the civilians at both cricket and foot ball.

The Family Herald and Weekly Star, Montreal, has its enormous circulation because it does not encroach upon the local country paper's work. People everywhere find they need the Family Herald and Weekly Star, Montreal, in addition to their own local weekly. The Family Herald and Weekly Star has an enormous staff of high-salaried editors, and spends large sums in gathering general news of the world at large, besides employing money freely in addition to its literary miscellany.

The Regina Leader says that at Prince Albert Sir Hector Langevin was received with enthusiasm, addresses, torch light processions and other popular demonstrations.

## LOCAL.

J. KELLY is re-singling his dwelling.

DR. POTVIN is erecting a frame stable on his lot.

SETTLERS are still coming into the Red Deer district.

JUDGE ROULEAU starts for Edmonton on Monday next.

BISHOP PINKHAM leaves Calgary for Edmonton on Monday next.

W. JOHNSTONE WALKER has placed a splendid lamp in front of his store.

MCCAULEY & IBBOTSON have started a butcher shop. W. Howie, manager.

WORK on All Saints church is progressing and will be completed in less than two weeks.

H. GRAHAME and Mr. Flett of the H. B. service, arrived from Winnipeg on Monday's stage.

MISS FIELDERS, of St. John, N. B., sister of Wm. Fielders, Edmonton, arrived on Monday's stage.

THE telephone line from Edmonton to St. Albert has been placed along the main trail as surveyed.

J. C. NELSON, D. L. S. and party started on Friday to survey the Indian reserve on the South Side.

JAS. ROSS, of Ross Bros, Edmonton, raised 80 bushels of potatoes this season from two bushels planted.

MCLROD's railway survey party was examining McKinlay's and Tate's creeks on the South Side on Friday.

T. G. ROSS of Little Mountain raised 160 pounds of Early Puritan potatoes from one pound of seed this season.

PATRICK LAVIELLE and Portraits of Battle river arrived this week with 50,000 pounds of freight for Norris & Carey.

INDIAN treaty payments commence at Stony Plain, Peace Hills and Saddle Lake on Wednesday next, October 8th.

E. CAVENHILL of East Edmonton returned on Wednesday from a long visit to the United States, Ontario and Manitoba.

THE Berlin Daily News of September 15th mentions that Rev. D. G. McQueen of Edmonton was visiting in that town.

H. GRAHAME and Mr. Flett of the H. B. service left for Chipewyan on Thursday. Mr. Grahame is returning from a visit to the Pacific coast.

F. A. OSBORNE returned from Calgary on Wednesday night, whither he had accompanied Mrs. Osborne, who has gone on a visit to England.

THRESHING was commenced on Friday of last week on Fraser & Co's farm at Little Mountain. Thirty acres yielded 1,100 bushels of excellent barley.

J. BROWN and J. Goodridge returned on Thursday evening from a hunting trip to Beaver lake, and Hay lakes, making the circuit of the Beaver hills.

THE prize list for the fall fair of the Medicine Hat agricultural society has been received. It is a neat little pamphlet of 24 pages, printed at the Medicine Hat Press office.

GRIP's last issue has a cartoon representing Goldwin Smith and Principal Cavan, leading equal righters, enquiring of each other regarding their leader in the equal rights movement. "Have you seen anything of McCarthy?"

J. C. NELSON, D. L. S. and his assistant Mr. Austen, arrived on Monday's stage to subdivide the South Side Indian reserve in order that it may be offered for sale. The reserve is within two miles of Edmonton and the C. & E. railway will run through it.

MEMBERS. Ross, Mann, Holt and Nanton of the Calgary and Edmonton railway company, Supt. Whyte of the C. P. R. and Mr. Lumsden engineer for the C. P. R. left Calgary for Edmonton on Wednesday morning and will probably arrive here to-day.

A SAMPLE of Azof wheat, a newly introduced Russian variety, grown by W. Stephens, East Edmonton, shows an excellent growth and early ripening qualities, and seems to be a better grain than the Ladoga wheat. It is a red bearded variety, but not as red or as coarse looking as the Ladoga.

TRACK was laid on the C. & E. railway ten miles north of Calgary where the stage passed on Thursday of last week. The work was going on at the rate of two miles a day. Grading had not extended beyond a point five miles north of the Blind Man, but two parties were on the way north to start work on this side. The grade will be finished to the Blind Man, one hundred miles north of Calgary, in about three weeks. Spike survey party is still at Blind Man.

MCLROD's C. & E. survey party reached town on Saturday afternoon last and camped on the South Side. They occupied Monday, Tuesday, Wednesday and Thursday, when the weather permitted in running lines down the Mill creek, opposite the centre of town and across the river on to D. Ross' property on the flat below the H. B. fort, and also in taking levels and measurements.

ADVERTISEMENTS appear in some of the Northwest papers announcing that the usual aid will be given to Northwest agricultural societies. Every society having eighty-three members who have paid \$1 each will receive the maximum grant of \$250. Information regarding membership, etc. must be furnished the department of agriculture at Ottawa not later than October 15th.

Calgary Tribune: Mr. Donald Ross of Edmonton sent down by Monday's stage four heads of cabbage weighing 85 lbs, one of them tipping the scales at 24 lbs. He also sent some onions grown from the seed quite equal to the imported California onions. Also carrots correspondingly good. We greatly doubt if there is another producer in Canada that has beaten Mr. Ross this year in these lines.

THE police contract for oats has been let to W. Fielders, for Edmonton at 38c and to Jellett & Ottewill for Fort Saskatchewan at 39c. The potato contract has been let to D. Ross for Edmonton at 35c and to Moret & Lamoureux for Fort Saskatchewan at 44c. The bran contract has been let to G. Hutton of St. Albert at 11c. The wood contracts for Fort Saskatchewan have been let as follows: W. D. Carscaden 150 cords at \$1.50 per cord. Thos. Jackson 150 cords at \$1.45 per cord and H. Paradis, 100 cords at \$1.45 per cord.

A DAKOTA pilgrim at Brandon told the Mail of that place that a self binder costs \$180 cash or \$200 on time in Dakota against \$200 cash and \$220 on time in Manitoba. There must be a mistake somewhere. W. Fielders, agent for the Massey Company at Edmonton, sells to farmers at the Calgary railway station, they freight in themselves, a six-foot binder for \$180 cash, \$190 on one payment or \$195 on two payments. Selling at Edmonton 200 miles distant, the freight \$25 to the machine, is added, which is then only \$5 above the Brandon price given by the Mail.

Speaking to a reporter in Montreal Jas. Ross of the Calgary and Edmonton railway said: The rails for the entire line of railway, 300 miles, are purchased, and will be placed along the new road as soon as they are required. From Calgary to Edmonton, through the Red Deer country, or, in other words, for half the entire distance, 200 miles, the road is being rapidly pushed forward and it is expected that by the first of December grading will be completed to Edmonton and the rails laid for 100 miles. Next July Mr. Ross confidently expects to see the iron horse at Edmonton and the southern section of 100 miles would also be completed next year.

W. STIFF and Miss Robena Henderson have been awarded second class grade "A" teaching certificates by the Northwest board of education and Alex. McCauley a third class grade "A". The written examination took place sometime ago at Edmonton and the papers were forwarded to Regina for the award of the board of examiners with the above result. Master McCauley is only fourteen years of age and the last examination for 3rd class candidates was much more difficult than preceding ones, the three new subjects of book-keeping, science and art of school management, and literature having been added to the list. Master McCauley and Miss Henderson are both pupils of the Edmonton public school and their success is good proof of the success of the school.

THE semi-annual meeting of the Edmonton curling club was held last evening in D. Ross' hotel, the vice-president, Jas. McDonald, in the chair. A communication was received from H. S. Young, who was elected president at the last annual meeting, declining to accept the presidency. Rev. D. G. McQueen was then elected president. The 1st vice-president Jas. McDonald resigned, and M. McCauley was elected 2nd vice-president in place of the 2nd vice, J. Leahy, who became 1st vice. G. W. Hielop resigned from the managing committee and A. F. Bagnat was elected in his stead. The committee was instructed to have the rink flooded as soon as the proper season arrives, also to make preparations to have it heated, lighted and ventilated, to employ a caretaker and to replace two stones that were broken last winter. Four new members were elected. The membership fee has been fixed at \$5.00.

JOS. HARGRAVE, at one time in the H. B. service here, is in Scotland. He was seriously ill in London before going to Scotland.

THE fine weather of last week continued until Tuesday of this week when damp and rainy weather set in and continued during Tuesday, Wednesday and Thursday, although not a great deal of rain fell. Friday was clearing and breezy. There was a sharp frost last night and to-day is clear and warm.

THE Dominion Illustrated of September 18th has engravings of the Earl and Countess of Aberdeen and their Hamilton residence, the late Judge O'Reilly of Hamilton, the late Dr. Wilson of Ottawa, private secretaries of the Canadian cabinet ministers, Victoria Rifles team, winners of the Carlsberg trophy, views of Kincaidline, Ontario, bridge over the Chaudiere at Quebec, and H. M. Ships Bellerophon, Canada and Thrush.

Calgary Herald: "It was supposed that the building of the Calgary and Edmonton railway, if it did not bring political strength to the government, would at least not weaken them with the people; but if the movements of the promoters are to arouse the hostility of the large populations centred at Calgary, Edmonton and Macleod a great injustice will be done to the government who have gone so far to meet the wishes of the people. We all know that there is a serious difficulty in connection with the probable non-entrance of the railway into the old town of Edmonton. We also know that there was no cause for any difficulty at Calgary but that one has been created through proposed land speculation on the outskirts of the town. And now it is Macleod's turn to complain." The Herald is very amusing. To ignore the vested interests of Calgary and Macleod is a crime. To ignore those of Edmonton is perfectly excusable according to its ideas.

#### BRIGHTENING PROSPECTS.

The people of this district have always been confident of the superiority of the natural advantages which it has to offer to agricultural settlers, and in the past have not been able to understand how it was that such superior advantages met with so little outside appreciation,—how it was that there was not a greater immigration; a more eager rush to secure them. They did not understand the isolation of the settlement as it was understood by others and did not appreciate the force of the influences working against it, and at times they were almost disheartened and inclined to believe that they had over valued the country. If they had cause to thus complain in the past of a lack of outside interest in their district they have none now that railroad communication has been assured—now that isolation is to cease and the influences that hitherto were against us have begun to work for us. Ever since work began on the Calgary & Edmonton railway, with every mile added to the grade outside interest in this district has risen and every week the arrivals of land prospectors has increased. Land is being taken up in all directions with the town of Edmonton as a centre, and in another year from present appearances the takings which are now by quarters or sections will then be by townships and blocks of townships. The press all over the country has given us favorable notice which cannot fail of having a good effect and the pile of letters of enquiry addressed to every resident whose name is known outside the district is continually increasing. Nature itself has as usual been more kindly than to other parts of the Territories, and the abundance of everything that the earth produces as well as the good market for it that the railway works will in all probability afford make the present a season of confidence such as has never been felt before. The arrival of the railway surveyors, who notwithstanding all alleged engineering difficulties have run their line into the very centre of the town, has added to the general feeling of confidence, which will be complete when the question of the terminus has been finally settled as it no doubt will be in a week or two at most. Taken altogether it seems to appear that the most sanguine expectations that were entertained regarding this district ten years ago when the C. P. R. main line was chartered to pass this way are now in a fair way to be more than realized. It is a most noticeable fact that although the tidal civilization to Manitoba and the Northwest is smaller this year than last, the immigration to Northern Alberta is many times larger than ever before. And this is only an earnest of what will be, when next year the railway reaches the Saskatchewan at Edmonton and can land the settler in the heart of the best farming and stock raising district on the continent, where the land is richer and deeper, the growth more luxuriant, the climate more pleasant and healthy, the supply of wood and water for all purposes, in connection with prairie land, more abundant and accessible, and the stores of coal larger and more easily available, than any where else in North America. To the hundreds of enquiries now being made as to this region our answer is the best: Come and see for yourself, and if you don't care to come, never mind, for plenty of others will be glad to take your place. This district needs settlers, desires settlers, will welcome and accommodate settlers but does not require to beg for settlers any more.

Germany has officially sanctioned the slave trade in her new possessions in East Africa. Britain has officially suppressed it in hers. That is the difference between the civilization of Britain and of Germany.

General Middleton has arrived in England and will likely be offered a position at the Horse Guards.

#### A MYSTERY.

From an item going the rounds of the papers it appears that delegates from the various continental European colonies in Manitoba and the Northwest are being sent home this winter at the joint expense of the Canadian government and the C. P. R. company to induce a further immigration of their fellow country men next season. At the last session of the Canadian parliament a special appropriation of \$150,000 for immigration purposes was made and it is generally supposed that it is for this service that the money will be used. There is no doubt that the immigration system hitherto pursued by the Canadian government has been practically useless and altogether unsatisfactory, and it was quite time that a new departure was made. On its face the present scheme appears to be a good one, such as will likely meet with a fair amount of success. But when the list of countries that will be visited is gone over the question very naturally arises: Why are not the British Islands included? It seems strange indeed that of all the countries of Europe, Great Britain should be almost the only one not included in this new effort to secure settlers for the Northwest. The omission is so unusual and so far from what has been so universally expected that it might be set down as a printer's mistake if it were not that there are good reasons for believing that it was from the first deliberately intended to exclude the British Islands from the scheme. What reasons the government and the C. P. R. company may have for such an extraordinary course it is not the present purpose to enquire, but when the superior suitability of the people of the British Islands as Northwest settlers and the immense annual overflow of population from those Islands that naturally occurs, leaving out of consideration special causes such as the present potato blight in Ireland and Scotland, and the injured harvest in England, are considered it is safe to say that no sufficient reason exists for the course pursued. The class of men who would be reached there by the plan which is being pursued in regard to other countries is the class of men the country needs—the practical farmer who is being crowded out by force of circumstances at home. The gentleman farmer, represented by the delegates now visiting the Northwest, need not be expected to come and the removal of the impoverished classes of old country people is for their benefit and that of the old country rather than for ours. We want the well-to-do laboring man of England or the small farmer of Scotland and Ireland, the very men that the old country does not want to spare, and we need not expect old country assistance in securing them. Why our government or the C. P. R. company should deliberately shut their eyes to the manifestly great advantage to result from even a small immigration of these classes of old country men—the classes who have made the Eastern provinces of Canada all that they are—is a mystery past finding out.

## PEACE RIVER.

A letter from Rev. J. Gough Brick, Church of England missionary in Peace river, dated August 28th, 1890, was received this week. The letter says: I am very glad to be able to report good crops this season. Our barley and oats are already cut, and wheat will be ready for the harvester next week. The spring was very late in opening. It was the 2nd of May before we could sow our first wheat. This was nearly a month later than the previous year. Some of our wheat, owing to being harrowed in too deep, did not show up until the first week in June. We have had no frosts since the 3rd of June, but a very wet summer. The rainfall for June, July and August so far has amounted to 7.22 inches. It has been almost impossible to carry on haying operations. The condition of our Indians during the past winter and spring was simply horrible. Unless rabbits return or government comes in to their relief they will eat up the Hudson's Bay Company, the traders and the missionaries. The only drawback with us this season was the scarcity of seed in the spring.

The Weekly Globe of September 19th contains a view of the new Globe building on the corner of Yonge and Melinda streets, Toronto, to which the establishment was recently removed from the historic building on King street. City improvement demanded the old site for a street, hence the removal. The building is 28 x 200 feet, five stories high and extends along Melinda street from Yonge to Jordan. It is in the very heart of the business of Toronto. Power and light are entirely furnished by electricity. The present office is much superior to the old one. It is to be hoped that the influence of the paper for good will be equal to its improved mechanical facilities.

The following are the names and districts of the British farmers' delegates visiting the Northwest: J. Speirs, South of Scotland; G. B. Brown, North of Scotland; E. R. Murphy, South of Ireland; W. Edwards, North Wales; Colonel Fane, Lincolnshire; A. Daniel, Norfolk and Suffolk; Mr. Hutchinson, North of England; J. F. Wood, Halewood, near Liverpool; H. Simmons, Bearwood Farm, Worthingham; R. Pitt, of Ilminster; Major Stevenson, of Londonderry; P. Foursin, Paris; Wm. Scotson. G. H. Campbell, of Winnipeg, accompanies the party.

Henry T. Moore of the London Mark Lane Express has been visiting Manitoba and the Northwest. He says: "If there are no worse difficulties to encounter in the way of climate than such frost as you have had this year or from an occasional wet harvest they are no more than the climatic difficulties which farmers in the old country have to contend against. The land is the best wheat land in the world. The crops are good; and frost and rains have done little beyond slightly reducing the grade."

Free Press: It is generally known that crab-apples of the Siberian variety are easily grown in Manitoba. There are several orchards at St. James and Headingly where they are cultivated; and there is an exceptionally generous yield of them this year. Crab-apples are also grown in several city gardens in the neighborhood of Point Douglas. Some fine samples from Mr. Fonseca's garden are on exhibition in the Immigration office at the station.

Canada consumes nearly twenty-seven million bushels of wheat and about two millions bushels are required for seed. Last year we only produced 27,090,000 bushels; so it was necessary to import into this agricultural country 1,500,000 bushels. This year the conditions are more favorable. It is estimated that we have grown 40,300,000 bushels, and that as a consequence we shall have 10,325,000 bushels to export.

Delegates from the foreign colonies in Manitoba and the Northwest will be sent to Sweden, Norway, Denmark, Finland, Germany, Austria, Hungary, Bohemia, Roumania, Russia, France and Belgium this fall. The delegates on their return will receive a bonus of \$5 for every quarter section of land taken up along the C. P. R. and Northwestern by parties brought to this country through their efforts.

The Southern Alberta papers report that the firm of I. G. Baker & Co. is about to withdraw from business in Canada, and will shortly close up their establishments at Calgary, Macleod and Lethbridge. The I. G. Baker firm is the largest in the country outside the H. B. Co. The headquarters is in Benton, Montana. D. W. Davis, M. P. is the Canadian manager.

The commissioners appointed to investigate the condition of crofters in the West Highlands see no remedy but emigration for the impoverished condition of the people. But the crofters do not wish to emigrate. They prefer their native islands with all their poverty.

Brandon conservatives are dissatisfied with their two party papers the Times and Mail, and desire to buy them out and start a true blue, dyed in the wool paper, but the Times won't sell and the Mail is not worth buying.

# THE GERMAN DELEGATES.

HENRY BURFORD, J. H. KERR, Franz Thomas, Adam Burg and John Schults of the German colony near Dunmore, Assiniboia, arrived on Saturday evening to see what inducements the Edmonton district has to offer to settlers, with a view to removal to it. The German colony of some 75 families which settled near Dunmore two years ago. Last year they had poor success in farming and this year discouraged them so much that they resolved to seek a new location. On representations made to them by the board of trade of this place on information furnished by John Kennedy of Poplar Lake these five men were sent out to report on the Edmonton district. Immediately afterwards they were driven by M. McCauley to the Poplar Lake and Sturgeon river settlements and then to the Stony Plain. They are well satisfied with the country and the crops are abundant and the whole Dunmore colony will remove, to be followed by about 80 families now resident in Winnipeg who are desirous of securing land. They believe that they will be able to settle about four townships, and will apply to have the vacant land in townships 54 and 55 in ranges 23 and 24 on the Horse Hill plain reserved for them until next spring, as the season is now so far advanced that they are unable to remove this fall. The government has given them the privilege of changing their homesteads free of cost, and the C. P. R. will give them free transportation over their lines. Before sending the five delegates to Edmonton the colony had sent Mr. Burford to Grenville, Wolseley in Eastern Assiniboia and he had reported favorably on that district, but now that he has seen Edmonton he will join in the recommendation in favor of removal to this district. The delegates left for Calgary on Wednesday. The greater part of the colonists are from Galicia, Austria but some North German descent, their ancestors having removed from the Rhine provinces to Galicia when that country became a part of Austria. They are of the Lutheran faith.

The Chicago Graphic of September 20th is an excellent number. It has engravings of governors Campbell of Ohio, Brackett of Massachusetts, Humphrey of Kansas and Fleming of Florida. The deck of H. M. Ship "Benbow" is going on Michelson's common, England. View in the Yosemite valley, views in Hawaii and King Kalakaua of Hawaii; The valley of Andorra in the Pyrenees and the towns and castle of Folx in France.

The United States Utah commission has reported in favor of renewal war on polygamy in that territory. The Mormon church stands more strongly in favor of polygamy to-day than ever before. Nothing but wholesome fear of the law leads them to even pretend obedience to it. Further and more stringent legislation is recommended.

The Qu'Appelle Progress says that Mr. C. E. Cullen, who went to Europe as immigration agent for the Northwest government, has accepted a position with a colonization company in South America. Mrs. Cullen has come to England to join her husband.

At a public meeting held in Westport, McPherson County, South Dakota, Geo. Lumsberry was appointed a delegate to visit Manitoba and the Northwest to report on the country as a field for emigration. He visited Brandon and will report favorably.

The Winnipeg Commercial of September 15th reports nothing doing in deliveries of wheat or oats owing to bad weather. Oats sold at 45c in car lots in Winnipeg. At other points 35c was paid. Butter 12c to 14c. Potatoes 35c to 40c at farmers' market.

Malcoed Gazette: Messrs. W. H. Adams and E. K. Boston, of the H. H. Co., Winnipeg, are in town. It is said that their visit is in connection with the proposed transfer of the business of L. G. Baker & Co. to the Hudson Bay company.

A Canadian government steamer for the British Columbia coast is being built on the Clyde of steel for \$75,000, a little more than half the price that it could have been built for in British Columbia.

Free Press, September 17: Seventy-eight settlers arrived by yesterday's train from the east. There were 22 for Winnipeg, 8 for the Brandon district, 1 for Regina and 40 for points west of Swift Current.

J. W. Silvesth of Leda, McPherson county, South Dakota, has reached Regina with his family and stock, driving all the way. He has been seven years in Dakota and had only one crop in that time.

The Portuguese residents of Bombay have resolved to appeal to the emperor, George the Portuguese dependency in India, unless Portugal redresses the grievances of his subjects in that territory.

Omar Fahe, the Turkish defender of Plevna in the Russo-Turkish war, is drowned at sea with 500 others on board a Turkish vessel which foundered on her return from a trip to Japan.

Michael Davitt the Irish agitator has started a paper in London called the Labor World. It is meeting with great success.

Free Press: Mr. Fonseca has left in the Free Press office a magnificent cluster of Transcendent apples grown in his own garden. The fruit is simply perfect.

L. A. Hamilton, land commissioner of the C. P. R. is now on a visit to the Milk river valley in Southern Alberta near the boundary line.

The Kamloops Sentinel mentions that last year a Mr. Chase of that vicinity left a potato at the Sentinel office which weighed 63 pounds.

The Winnipeg Tribune says that Henry M. Stanley will lecture in Winnipeg during the winter.

The Regina Leader gives the building improvements in Regina during the year as \$219,980.

Rev. J. B. Silcox, late of Winnipeg and now of California, is about to return to Ontario.
